DSA Quantum – Official Rule Book

1. Event Overview
DSA Quantum is a competitive, multi-round event designed to test participants' problem-solving abilities, logical reasoning, and core programming knowledge. The event emphasizes efficiency, accuracy, and conceptual understanding of Data Structures and Algorithms (DSA).

The competition consists of three rounds, each progressively challenging participants in different aspects of problem-solving.

2. Event Structure
Round 1: DSA MCQ Challenge
Format: Multiple Choice Questions (MCQs)
Total Questions: 6
Marks per Question: 2 marks
Total Marks: 12
Duration: 45 minutes
Mode: Pen and Paper

Description:
Participants are required to solve 6 DSA-based questions focusing on logic, algorithms, and conceptual clarity.

Evaluation Criteria:
Selection based on a predefined cut-off score
Accuracy and correctness of answers

Round 2: Code Debugging
Format: Debugging given code snippets
Duration: 30 minutes
Mode: Pen and Paper

Description:
Participants will be provided with faulty code. They must identify and correct errors to produce the correct output.

Evaluation Criteria:
Correctness: All errors must be resolved
Efficiency: Least time taken by the team
Output Accuracy: Final output must match expected results

Round 3: Surprise Round
Details of this round will be disclosed during the event.

Hint for Preparation:
Participants are expected to have a strong understanding of basic programming concepts in:
C
Python
Java

3. General Rules and Regulations

- Eligibility:

  The event is open to all registered participants/teams.

- Team Guidelines:

  Participants must adhere to the team size specified during registration.
  No collaboration between teams is allowed.

- Time Management:

  Strict adherence to time limits is mandatory.
  Late submissions will not be accepted under any circumstances.

- Fair Play:

  Any form of malpractice or misconduct will result in immediate disqualification.
  Participants must maintain discipline throughout the event.

4. Important Instructions

- Strictly Prohibited Items: Mobile phones, Smartwatches, Any electronic or digital devices
- All rounds will be conducted only using pen and paper.
- Participants must bring their own stationery (pens, pencils, erasers, etc.).
- Rough work should be done only in the sheets provided.

5. Evaluation & Judging

- Decisions made by the judging panel will be final and binding.
- In case of a tie: Priority will be given to accuracy Followed by time efficiency
- Any disputes must be raised immediately to the event coordinators.

6. Efficiency Guidelines
To perform well in DSA Quantum, participants should:

- Focus on logical thinking and problem decomposition
- Manage time effectively across questions
- Avoid spending too much time on a single problem
- Double-check answers for accuracy
- Write clear and structured debugging solutions

7. Code of Conduct

- Maintain professionalism and respect towards fellow participants and organizers.
- Follow all instructions given by event coordinators.
- Any disruptive behavior will lead to disqualification.
- Teams must remain unchanged throughout the event duration.

8. Final Note

DSA Quantum is designed to challenge your analytical thinking and technical fundamentals. Stay focused, think logically, and most importantly—enjoy the competition.
